

SHIV JATIA
MANAGING DIRECTOR

“Since 1984, Sanvik Engineers (I) Pvt. Ltd. has executed various projects for Asian Hotels Ltd. I wish to express total satisfaction with their work over the years.

In 1999, we had opted for VAM Chillers running on CNG and the entire air-conditioning system was refurbished.

We had entrusted this work to Sanvik who executed the entire job in a working hotel in a record time of 18 weeks.

We had also awarded the HVAC work of our Hotel in Kolkata in 2000. The work, which involved intensive coordination with our foreign designers, was completed well before time.

That Sanvik Engineers (I) Pvt. Ltd. has been associated with us for over 18 years is testimony to their professionalism”
